

## W. H. Chappell Retires Dec. 31

Served Pass Mines for Past Forty-two Years; Company Associates Make Presentations; Organizer of Many Community Activities.

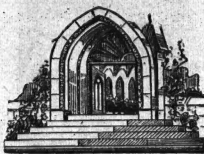

Starting as an outside laborer with the West Canadian Collieries Ltd., at their plant in Lille, Alta., (then N.W.T.), when that company's production at Lille was 300 to 400 tons a week, in 1905, and throughout the years watching the company grow to be the largest coal producer in Canada, W. H. Chappell, retired from the services of the company on December 31st after serving as a true and loyal servant for 42 years, and rising from laborer to the position of chief accountant.

As an expression of goodwill and respect the members of the accounting staff of the main office, together with the assistant general manager, Wm. Bird, and general superintendent, Harry Blake, had Mr. and Mrs. Chappell as their honored guests at a supper banquet at the Greenhill Grill in Blairmore on Monday, December 29, when after a brief address, Mr. Blake called upon Mr. Bird to present to Mr. Chappell a well-filled purse and Mrs. Kate Turner to present Mrs. Chappell with a lovely bouquet of roses on behalf of the members of the head office staff.

Mr. Chappell thanked the members of the staff for their kindness, more especially the members of his accounting staff who worked with him during the past many years.

### Marks Birthday

On the last day of the year and his last day of service with the company, and on his birthday, Mr. Chappell had the members of the staff as his guests at a social gathering in the office where members of many years' service swapped yarns of old times with one another.

"Serve the Church that the Church May Serve You."

Services at 7:30 p.m. every Sunday.  
**COWLEY UNITED CHURCH**  
Services alternate Sunday mornings at 11 o'clock.

### Three Train Wrecks

W. H. Chappell left Liverpool, England in January, 1905, as a young man and came direct to Frank, Alta., and had quite a perilous journey on the railway, being wrecked three times, once at McAdam Junction in the State of Maine, again west of Ottawa and finally 30 miles east of Medicine Hat.

He started working immediately with West Canadian Collieries as outside laborer, and later was transferred to Bellevue, and was one of the early members of the UMW of A when District 18 was first formed. After serving store-keeper, time-keeper and office worker he was appointed chief accountant in 1916 and came to Blairmore to work in the head office.

Being quite active in furthering the communities in which he lived Mr. Chappell took a lively interest in education of the children and was secretary-treasurer of the Bellevue School District from 1906 to 1916, and school trustee for Blairmore School District from 1918 to 1932, and was a member of the provincial executive of Alberta School Trustees' Association for six years, and was chairman of the Blairmore School Board at the time of the teacher's strike in 1925.

### Active in Sport

When the first Crow's Nest Pass Football League was formed in 1905 he was elected vice-president, with Tom Graham, of Michel, as president and Jack Carter, Fernie, secretary. He was also an officer of the first hockey club formed in Bellevue in 1914, when Rev. "Bob" Pearson, then president of the Amateur Athletic Association, "white-washed" all players in existence around the Pass and gave them all amateur cards. He was also president of the Blairmore Hockey Club from 1918 to 1925 and assisted in having the Blairmore Arena built in 1921, which was the first covered rink in the Pass, and has been a member of the Blairmore Curling Club since its inception in 1921. He also assisted in organizing the Blairmore Community Sports Association which built the second "Olympic" race track in Alberta.

In his younger days Mr. Chappell took quite an active interest in sport, especially in foot racing, football, cricket and was a member of the Pass Turf Association in 1906 and cleaned up on many races with his horse on the Pass horse race track.

Mr. Chappell is a member of the Blairmore United church and was secretary of the Central United church at Blairmore which formed a United church in Blairmore seven years before "Union" was consummated in Canada.

### Prominent Mason

He is a member of Rocky Mountain Lodge No. 86, AF and AM, and has been a member for 30 years and a member of Grand Lodge AF and AM of Alberta for 24 years having held the office of District Deputy Grand Master in 1937-38; member of Blairmore Lodge, BPOE for 20 years, is a past president of the Rosiophic Aztec of Eagles one of the first Eagles lodges constituted in Western Canada and is past Noble Grand of Bellevue Lodge 100F.

During World War I he was captain of the Victory Loan team in Blairmore and was organizer of the Blairmore-Frank War Finance Committee in World War 2, took an active part in 12 Victory Loan drives and two War Bond issues. He organized the

1920 BLAIRMORE MINE RESCUE TEAM

With the retirement of W. H. Chappell and the chronicling of the many community activities he was a part of, the above picture of Blairmore Mine Rescue team that were winners at Drumheller in July, 1920, and of which Mr. Chappell was a member, will no doubt be interesting to him at this time. Wonder how many can name those in the picture.

## Miners Refuse \$1 a Day Increase Wages

The Calgary Herald, under date of January 15, states in part:

Miners in the Alberta coal towns remained quiet with no disturbances reported. Meetings of local UMW unions were held Wednesday and others were scheduled for this afternoon.

The purpose of the meetings was to explain to the rank and file of district 18 why wage negotiations between the Western Canada Operators and the union had broken down.

Talks at the meetings by local union officials centred around the demand of \$1 a day for new wages. The miners would be retroactive to Dec. 3, 1947. The miners are also being told why the officers of district 18 refused to accept the approximate \$1 a day increase offered by the operators.

This increase was offered on the basis of the advance in the cost of living since October, 1946.

### LEAD POISONING

Eating lunch at the factory workbench is dangerous, according to a warning from the industrial health division of the department of national health and welfare workers, carefully placing food on the work bench may add some such dangerous metallic substances as lead to their diet and, say the health authorities, lead poisoning is far too common an industrial disease. Care is also urged in measures for ventilating plants to clear air of lead dust and lead fumes.

Blairmore Red Cross Society and filled the office of president, also provincial vice-president of the Alberta Branch of the Society, and after the end of the Second World War was president of the citizens re-habilitation committee.

For several years he was a member of the Bellevue and Blairmore Mine Rescue and First Aid teams, and was called upon to do active work in the mine explosion in Bellevue in 1910 and Hillcrest in 1914.

The best wishes of the people not only of Blairmore but throughout the whole of the Crow's Nest Pass are extended to Mr. Chappell, that in retirement from active work he will be blessed with many years of happiness free from care and worry.

In case you were unable to pick out those in the 1920 Mine Rescue team shown above, let us help you. Top row, left to right: A. Hamilton, R. Patterson, J. McAndrew, M. Hamilton and W. Chappell; kneeling, the late E. Royle and W. Lord, Jr.

## Charles Hughson Laid To Rest

Funeral services for Charles Hughson, 72, of Blairmore, well-known pioneer of Southern Alberta and one of the few remaining men who joined in the Yukon gold rush of 1898, who died in Holy Cross hospital, Calgary, Jan. 3, were held in St. Luke's Anglican church, Blairmore on Tuesday afternoon of last week. Rev. Cyril Clark of Pincher Creek officiated and burial was in Blairmore cemetery.

Gravestone services were conducted by the Benevolent and Protective Order of Elks, Blairmore lodge, with Brother Samuel Scott, lodge chaplain, in charge.

Mr. Hughson was born in Raleigh Township, Kent County Ontario, March 16, 1876, and came west as a young man. He prospected for gold in the Klondike for some years. He was well-known in the Crow's Nest Pass area and for the past several years he had been caretaker of the Crow's Nest Golf and Country Club and in the winter in charge of the skating facilities in the Blairmore arena.

Returning from the Klondike, deceased took up residence in Calgary in 1900 and in 1902 came to Lundbreck to homestead. In 1913 he married Lavina Hayes at Pincher Creek and in 1931 moved to Blairmore. In 1944 he left for Nanaimo but returned to Blairmore a year and a half later, where he has since resided.

He is survived by his wife, Lavina; three daughters, Mrs. Lloyd Williams (Anna) of Blairmore, Mrs. Ronald MacLean (Clara) of Nanaimo and Lillian at home; two sisters and two brothers in Ontario, and three grandchildren.

Pallbearers were H. M. Dancy, R. C. Old, A. Bourne, W. C. Meier, C. A. Freeman and H. Carmichael, all members of BPOE No. 15.

### KEEP OFF THE ROOF

Each Spring thousands of dollars are spent in repairing damage to roofs by shovels and scrapers used the previous winter. Using the sharp edge of scraper or shovel to remove ice will damage any roof. A normal snow fall is not likely to harm the roof in itself, the experts say, so it is better to leave it there than to risk worse damage from the careless handling of removal instruments.

To remove scum, grease and silt from wash bowls and bathtubs, sprinkle baking soda on a damp cloth and rub thoroughly.

## Coal Mines Tied Up Since Monday

Starts in the Pass Midnight Monday and Spreads Throughout District 18; Further Union Meetings This Week End.

Most of the coal mines in District 18, United Mine Workers of America, are still tied up in the "no contract, no work" strike which started in the Crow's Nest Pass at midnight last Monday and spread rapidly. There is no sign of a break in the situation in southern Alberta mines, and the possibility of real hardship through coal shortages are seen should the work stoppage be prolonged and the weather turn cold. Already there is a sharp change in the weather with snow covering the ground and temperatures somewhat lower. It was "quite cold" in the Pass the last two nights.

The strike spread rapidly to Alberta mines and then to British Columbia. It followed by hours a breakdown in wage negotiations between operators and representatives of District 18.

District 18 embraces virtually all unionized workings in Alberta, Saskatchewan and British Columbia. Alberta union officials had asked for a wage increase of \$3 a day and a \$14-a-day minimum, seven cents more in the levy a ton for the miners' welfare fund.

Both Alberta and British Columbia government officials were striving to bring about settlement of the dispute based on "no contract, no work."

Hon. C. E. Gerhart, Alberta minister of trade and industry, and Hon. N. E. Tanner, minister of lands and mines are understood to have met union and company officials in Calgary and it is understood the situation was to be discussed by the cabinet yesterday.

In the Pass, unions held meetings yesterday at Blairmore and Coleman to hear reports on the negotiations at Calgary between the union representatives and the operators. At Coleman a shortage of coal has already developed. International colliery strip mine coal from York Creek to families in need of fuel.

In Lettbridge nothing has been given out after meetings of the mine workers' local union. "We're sticking tight, that's the word," said a union official, adding that there was nothing more to report.

While most points are fairly well supplied with coal there is no large stockpile and there is a general hope that the strike will soon be settled, and that coal will again be moving.

Only coal being produced in Alberta came from a few scattered open-faced strip mines, government-operated and worked by non-members of the UMW.

Probably 2,500 pit workers are idle. Neither Robert Livett of Calgary, and formerly of Bellevue, president of district 18, nor Angus Morrison, secretary, would see or talk with reporters in Calgary, it was stated in that city. Whether the union plans to join with the operators in setting up an arbitration board is not known.

Mr. and Mrs. W. Welch, of Lundbreck, are Blairmore visitors.

### CARD OF THANKS

Mrs. C. Hughson and family wish to thank neighbors and friends, also the B.P.O.E. and Mr. Culham; special thanks to Mrs. Clarence Gilmar, Mrs. R. Simister, Mrs. T. H. McKay, Mrs. H. Carmichael, for kindness shown in their sad bereavement.

Mrs. C. HUGHSON AND FAMILY.

## Issues Statement

CALGARY, Jan. 15.—(CP)—Wage negotiations between the operators and union were discontinued because the operators insisted on prolonging discussions so that the membership if District 18 would be forced to continue work without a contract, District 18 headquarters in Calgary said today in the first statement the union has made since the initial walk-out at midnight Tuesday.

"The operators did not carry on negotiations in good faith," the union said. We invited the operators to meet us on Oct. 2, 1947 to negotiate a new agreement but the operators did not offer to negotiate between this date and Dec. 3.

"The operators are hoping to benefit at the expense of their employees for their failure to carry on negotiations within the time allotted for that purpose."

The statement has been sent to Mrs. Justice G. B. O'Connor, of Edmonton, conciliator in the three weeks of negotiations.

"The only reply the operators have made to our requests has been a vague cost of living formula based on the index numbers of the cost of living index and this will not meet the primary needs of the union," Robert Livett, president of District 18, said in a statement.

## HILLCREST ITEMS

Mr. and Mrs. J. Pierchala are the proud parents of a daughter, born at Karlner's Maternity Home.

Mr. and Mrs. R. Cruickshank, of Olds, spent a short visit here with Mrs. Cruickshank's parents, Mr. and Mrs. G. Cruickshank, between Christmas and New Year's day.

A daughter, Penny, was born to Mr. and Mrs. John Hartford, and friends are sorry to learn that she is in Lettbridge for medical treatment.

The January meeting of the United church Women's Association was held at the home of Mrs. W. Thomas. Officers for the ensuing year are as follows: President, Mrs. J. Curry; Vice-president, Mrs. J. Hyslop; Secretary-Treasurer, Mrs. W. Moser.

The Student's Union of the Hillcrest high school are holding a series of whist and bridge drives, the first of which was held in the Catholic hall last Friday night. Prizes were as follows: Bridge, ladies, Mrs. Alex. Gramgentlemen, Mr. Alex. Grant. In whist Mrs. H. Gryschuk and Miss Helen Iwasak were the winners.

Misses Betty Craig and Verna Craig spent the holiday season with their grandmother in Galloway, B.C.

Mr. and Mrs. Ed. Styles spent the Christmas holidays with Mrs. Styles' parents in Stirling, Alta.

Mrs. D. MacLain, of Macleod, was a visitor here recently with Mr. and Mrs. T. Craig.

Mrs. C. Coover, Shirley and Judy were visitors here with Mr. and Mrs. J. Dudley on Thursday of this week.

Clear water and a wire brush will remove whitewash from the exterior of a stone house.

To give a tang to raspberry or loganberry jam, add one teaspoonful of citric salts to the batch while it is cooking.

**SATIRA FOUND GUILTY**—Maximum penalty of 20 years in prison and a minimum of six years is faced by Patricia Schmidt, billed as "Satira" in night clubs, charged with eluding of John Lester Mee of Chicago. Havana court said the trial was "concluded for sentencing". The dancer formerly of Toronto, Ohio, is seen here with guards.

**RESCUED FROM LABRADOR WILDS** — Capt. J. B. Cleghorn of Montreal was one of two Canadians rescued by an air force ski plane after they had crashed in a B-17 U.S. plane on a frozen Labrador lake. Seven Americans, Capt. Cleghorn, and R. H. Fyver of Barrie, Ont., were landed at Goose Bay by the rescue plane. All were reported unaffected by their two-day exposure to sub-zero temperatures. Supplies of food were plentiful and the men had been able to shelter themselves from the wind and cold by building lean-to's of scrub-timber and parachutes.

**KING MICHAEL ABDICATES TO MARRY WOMAN HE LOVES**—Abdication of King Michael of Romania means he will be free to marry as he wishes some sources predict, recalling the abdication of the present Duke of Windsor and his subsequent marriage. Michael is seen with fiancée, Princess Anne de Bourbon-Palma, (left), and actress Anna Neagle, (right), during visit to a London studio to see movies made.

**POP BOTTLE PROVES MIGHTIER THAN PISTOL**—Whirlwind attack by father and son forestalled a robbery at a fish and chip store in Toronto. Tom Higgins, (left), shows the technique used when he helped his son subdue the robber. While they wielded pop bottles, Mrs. Tom Higgins, Sr., shown right, called the police.

**BERATES GUNMEN TO NO AVAIL** — When one of three gunmen holding up a Toronto bank addressed Mrs. Lynn MacArthur as "Hey, you", she berated him for stealing instead of earning a living. However, he and his confederates did not reform on the spot, but herded the bank staff and customers into an office and forced them to lie on the floor, and escaped with \$7,500 cash. Mrs. MacArthur is seen with her husband of one month.

**FRENCH GREET FRIENDSHIP TRAIN SUPPLIES**—Native costumes were worn by these girls from every province of France, who were in Le Havre to greet the arrival of the ship American Leader, loaded with food for the French people. The food was collected by the Friendship Train.

**CAUSES PATIENTS TO LOSE PAINS AND ACHES**—In the office of Dr. A. E. Noble of Long Branch, Ont., something new has been added to the magazine rack and the framed diploma. Patients are enchanted by this snow scene complete with electric trains, houses, village, fire halls and Santa Claus and his reindeer. Mrs. Noble, shown with the waiting-room work of art, helps her husband build the scenes. Dr. Noble says many patients forget their aches and pains looking at the trains and flickering lights.

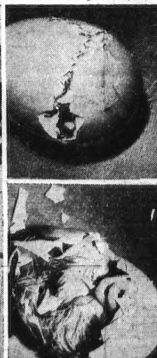

**PETRILLO IS IN THE NEWS**—Making records as fast as they can before James Caesar Petrillo's ban stopped union musicians from playing for discs were such stars as Dinah Shore, (right).

## New Chick Incubator Allows Spectators To See Miracle Of Hatching

Development of a new baby chick incubator by the Kety Hatchery in Huntington, N.Y., makes it possible to watch the miracle of birth—to see a baby chick burst its prison walls and crash out into this strange world. This hatchery produces some 5,000,000 chicks a year, which makes it one of the largest producers of chicken dinners in the world. At left, Walter A. Kety, one of the brothers who operate the hatchery, explains the new

incubator to a group of school children. A plastic dome enables the on-looker to watch all stages of birth of the young chickens. In centre, four of the principal stages of birth are recorded by the camera. Top left: The tiny prisoner has breached the wall of the shell and is widening its breach. Lower left: 26 minutes later, one side of the shell has been knocked away and you can now see folded position of the chick. Top right: Freedom at

last. The chick has pulled its head free and is resting after the effort. There was a period of 20 minutes between stage 2 and 3. Bottom right: Bright-eyed and fluffy as a powder puff, the new arrival stands outside its erstwhile prison one hour and five minutes after stage 3. That time had been used mostly shaking herself dry. At extreme right: Eight-year-old Judy Matthews, who is cute herself, cuddles the youngster.

## OUR COMPLETE SHORT STORY—

## TO BE REDEEMED

(By EDWARD EARL LEE)

SILAS HENBURY, wedged into a chair tilted against the counter, was slipping into his regular after-dinner snooze when the door opened. The customer was an elderly woman. Silas rose and the chair creaked its relief. He clumped behind the counter and said: "Good evening, ma'am. Something I can do for you?"

"Why-why, yes, I suppose so. At least, I hope so."

Her voice registered pleasantly. He seldom heard such modulated speech. He was more familiar with haggling, shrillish voices, peevish whining tones; arrogant, demanding talk. It reminded him of his past; a past he recalled less and less with passing years.

"Anything within reason. That's why I'm called 'Uncle Silas'. My customers are just like relatives to me."

"That makes it easier. I never had to pawn anything before. But..."

Her voice trailed into silence. Silas knew that when she continued, throughout her story would run the same theme as countless others to which he had listened during his 40 years in the pawnbroker business. He nodded his head encouragingly.

"This gold locket," she said, unfolding her hands to reveal the trinket, "was presented to me by my husband when we were married. No matter how often we moved, trying to better our circumstances, they never improved. After his death last year things became worse. I sold most of my valuables. But this... I just couldn't. I only want a loan on this locket, for tomorrow I shall redeem it."

"That is what they all say, thought Silas, as the locket changed hands. And the pathetic thing is they actually believe it; despite the possessions of many other persons in the pawn shop which now bear price tags. His philosophizing was ended by the woman continuing her story.

"But to every pawn shop I've gone, they refuse to lend me any money. They say it is not valuable enough to be held as security for repayment of the amount of money I need. I know they are mistaken."

"Well—soon see," said Silas. He lightly scratched the surface of the locket with a penknife. Inside the shallow furrow he let fall a few drops of acid, then shook his head up at a

greenish tinge appeared, saying: "I'm sorry, but this locket's only value is as a keepsake. It's tin."

"I... I can't understand it. There must be some mistake. Look here," she directed, unfastening the trinket. Its two heart-shaped halves swung open and she pointed to metal that encircled two miniature portraits.

"See how bright and solid that is?"

Silas gazed intently at the pictures, then carefully scrutinized her face. Slowly, indistinct impressions emerged from recesses of his mind to be once outlined sharply in his conviction.

"That photograph favors you, ma'am, even though it was taken when you were younger."

"Forty years younger, to be exact, when I was married. The opposite one is of my husband. It favors him, too."

"I'm sure it does. Looks like he was a fine man."

"He was. Folks said he was unreliable and irresponsible. I suppose Henry was, in a way. But they were his only faults."

"Pardon my asking, but you loved him a great deal?"

"Yes, and I still do," she answered. Then, regarding him with a quizzical look, said: "Why did you ask?"

"Well, I just kind of thought a woman wouldn't stay married 40 years unless she loved her husband a great deal."

"You make me feel noble," she replied. "Now, concerning this locket." Her words recalled Silas to the business at hand. He said: "I was mistaken. The inside was what convinced me."

Silas gave her the money she requested and closed the deal. Her fervent thanks made him glad that he had gone through with the deception. For, he had recognized Agnes Trumbull's picture. That was how she had looked when she had rejected him to marry his cousin, Henry, whose photograph appeared in the locket's other half.

Silas had known Henry was unreliable and irresponsible but he did not criticize him to her. Leaving home, he had never written or returned.

Thus, Silas had lost all trace of Henry and Agnes until tonight when he had recognized her picture in the locket. Evidently Henry had become pressed for cash and sold the original locket, substituting a similar though cheaper one, and had died before he could make restitution.

Silas knew Agnes still loved Henry and would be hurt to learn the truth. And, Silas still loved her so much that he had created a certain way to assure her remaining ignorant of Henry's deception. That was, to advance so large an amount on the locket that she would never be able to redeem it.

### Lethbridge Man Has Interesting Museum

LETHBRIDGE, Alta. — As a boy, Walter Gurney wanted to collect items—but he never had enough money to do it. However, 12 years ago he and his wife took a trip to Havana and that crystallized his determination.

Now Gurney's museum is one of the showplaces of Lethbridge. More than 43,000 visitors—including many from such distant places as South Africa, Europe and Australia—have inspected the collection in little more than two years.

At present, Mr. Gurney has about 350 mounted birds and animals. There are 640 bird eggs and 13 outstanding freaks. He has a baby pig with the body of an elephant, an albino mouse and an albino kitten. German prisoner-of-war left behind a complete set of war badges and also 13 different battleships carved out of wood.

In the Indian section are arrows, hammers, stone pipes, knives, tomahawks, head dresses and bead work. There are sea shells from all over the world including coral and mother of pearl.

Mr. Gurney didn't stop there, he has, in addition, a coin and currency collection dating back to 146 A.D. There are two handmade coins dated 238 A.D. and 244 A.D. And, strangely enough, there is also the now unknown Canadian four-dollar bill.

Mr. Gurney says it takes four full hours to really tour the museum and he thinks it's time well spent.

### BEAT THIS! \$21.00 FOUND IN CAN OF SOUP

MOOREHEAD, Minn.—Bill Wherzog found a \$21 can of soup when a customer ordered tomato soup at Wherzog's restaurant.

When Wherzog opened the can, he saw a piece of crumpled paper in the soup. As he was about to throw the can away, he detected printing which said: "Payroll Savings Plan, National Bank and Trust Co. of New Jersey."

Inside the folded paper were four \$5 bills and a \$1 bill.

Three-quarters of the world's area is ocean. 2708

A QUESTION MARK—This snapshot by Miss Nora L. Marshall, Glanford Sta., Ont., shows approximately 700 pullets raised in 1947. The design in picture is supposed to be a "question mark". It was first arranged with lime, then followed with scratch grain. "At present," states Miss Marshall, "it certainly is a question as to the profit to be made at the price of feed."

## Canada's West Dotted With Hidden Oil Wells

A. I. Levenson, Geologist, Predicts Hundreds Of Wells To Be Discovered

OTTAWA—A. I. Levenson, retiring president of the Geological Society of America, said it is "inconceivable" that the plains of western Canada "should not be the site of hundreds upon hundreds of oil fields yet to be discovered."

In his presidential address to the first joint annual meeting of the U.S. society and the Geological Association of Canada, he said this reasoning also applied to the plains of Mexico.

"Deposits such as the Athabasca oil sand of Canada or the Golden Lane and Posa Rica fields in Mexico give a measure of the possible size of some of these undiscovered fields," he said.

"Not until thousands of additional test wells have been drilled throughout both regions can we say that the exploration of these areas has been completed."

Dr. Levenson, a professor at Stanford university in California, reviewed the oil resources of the North American continent and said current demands plus the fact production is running close to capacity "gives legitimate alarm about our ability to continue to supply adequate amounts of petroleum during the decades ahead."

The two alternatives were to manufacture substitute fuels from the great reserves of coal, oil shales and tar sands and to increase oil field discovery within the continental borders.

Two areas which have many common characteristics significant in the geology of petroleum are the plains of western Canada and eastern Mexico and Guatemala. Both contain numerous and widespread evidence of petroleum in the form of seepages, asphalt and tar deposits as well as proven oil and gas fields.

Average depth of the ocean below sea level is 12,450 feet.

WANDERS AT TIMES

The moon, at times, wanders slightly from its path. Although it does not stray more than about 20 miles from its predicted position, it is this variation which causes slight errors in time schedules of eclipses.

## ALBERTA'S LICENSE

PLATES BY MARCH 15

New motor license plates for the  
1948-49 period which opens April 1,  
will be available soon after March 15,  
according to information received by  
the Alberta Motor Association from  
the provincial secretary's department.

The plates have been ordered and  
are expected to be delivered during the  
present month to the provincial anti-  
quities. During February; they will be  
distributed to the different licensing  
agencies, including branches of the  
AMA which issue thousands during  
the year.

This year, the province is returning  
to the two-plate system, which will  
mean front and rear plates. These  
were given up during the war period,  
owing to the shortage of steel.

Provincial officials point out that  
owners should take steps to see that  
frames or holders for the plates are  
obtained. During the war years many  
of these frames were taken off the  
cars, while some of the new cars have  
no such device.

During the present year, a record  
number of cars are expected to be  
licensed, through 1947-48 year already  
has run up a record total of 102,000.

Bills: "My wife talks to herself."  
Jim: "So does mine, but she doesn't  
realize it—she thinks I'm listening."

Write "Blaimore wife: I want an  
explanation, and I want the truth."

Bobby: "Well, make up your mind.  
You can't have both."

## Looking Into the Matter . . .

You'll find that the tried  
and true recipe for thrift  
is to shop the EATON  
way.

It's a Canadian dish—known  
from coast to coast, and one that  
the whole family shares.

Since 1859 the organization has  
grown with Canada; and  
through its Mail Order is avail-  
able from coast to coast.  
EATON'S aim always has been  
to offer quality unsurpassed at  
the price in fashions, furniture,  
equipment for farm or home,  
and every sale is made with that  
familiar reassuring guarantee—

"Goods Satisfactory or  
Money Refunded,  
Including Shipping Charges."

T. EATON CO.

EATON'S

## DEPARTMENT OF MINES AND RESOURCES

With the full approval and co-op-  
eration of the doctors in charge, young  
patients in seven Indian hospitals in  
Western Canada literally "go to  
school" in their beds.

This combination of convalescence  
and education exists through the close  
co-operation of the Indian health ser-  
vices, department of national health and  
welfare, and the Indian Affairs branch  
department of mines and resources.

The hospital school program was  
brought about through the desire of  
the Education Division of the Indian  
Affairs Branch to have the instruction  
of Indian children continued during  
their hospitalization, and the recogni-  
tion by the health services, who op-  
erate the hospitals, of the importance of  
busy minds in speeding up the process  
of healing.

Qualified school teachers are attached  
to the staffs of Indian hospitals at  
Miller Bay, Nanaimo, and Coqualeetza  
British Columbia; Edmonton, Alberta;  
and Brandon, Duncry and Clearwater  
Lake, Manitoba. Plans have been made  
to place teachers in two more hospi-  
tals, at North Battleford, and Fort  
Qu'Appelle, Saskatchewan, in the near  
future.

Hours of study are naturally gov-  
erned by the condition of the patients.  
The curriculum followed is necessarily  
flexible. Much is left to the discretion  
of the individual teacher, who goes  
from bed to bed assigning studies to  
the patients, checking on their pro-

gress, and encouraging them to do the  
best possible work.

At the Charles Cammell hospital, Ed-  
monton, the teacher and pupils co-op-  
erate with the medical staff to produce  
a monthly publication "The Charles  
Cammell Arrow", containing articles  
and illustrations by the children. At  
Coqualeetza, the children display a  
keen interest in handicraft, and arti-  
cals made by the young patients are  
sold for their benefit. Educational films  
shown at all the hospitals evoke keen  
interest.

The program is not confined to chil-  
dren. Many adults have become in-  
terested and have been taught "the  
three R's" while recovering from vari-  
ous ailments.

The hospitals are visited regularly  
by provincial inspectors who speak  
highly of the surprising results ob-  
tained under conditions which fall far  
short of those existing in the class-  
rooms of the average school.

## Get Your Copy of the NEW FARM ACCOUNT BOOK at Your Local Post Office

You'll like this NEW Farm Account Book. It's so simple and direct.  
You don't have to be a bookkeeper to use it. A few minutes each week  
are enough to set down your farm transactions—the money you receive  
or the money you spend. At the end of the year, it will give you a clear  
picture of how you made or lost money.

## Saves Money for You

Answers questions you want to know about  
Income Tax, too. Everyone with a taxable  
income must file an Income Tax Return on  
or before the 30th day of April in each  
year, showing his total income for  
the preceding year. The Farm Account  
Book enables you to take advantage of all  
the deductions and exemptions. Provides  
a record from which you can average your  
income over a three-year period. If you are  
liable to taxation under the Income Tax  
Act and have a year of loss, you will be

able to charge the loss against the profits  
of the previous year or the next three years  
as shown by the records you keep in your  
Farm Account Book.

You won't need to pay an expert to  
prepare your Income Tax Return if you  
have this book. Each account is numbered  
to correspond with the items on the Income  
Tax Return. You will also find the Account  
Book useful in keeping your records, even  
though you are not liable under the Income  
Tax Act.

## Get Your Free Book Now

Don't delay. Your local Post Office has an Account Book for you. Get it now.  
It's important that you have it to start the new year. Get the benefit of all allow-  
ances that the law permits. Profit from the knowledge gained from keeping  
proper records. It's free—and you will find it most useful. Call at your Post  
Office at the first opportunity for your Account Book.

DEPARTMENT OF NATIONAL REVENUE

## Come And See Us At Work, Farmers

### "Let There Be Light" Between Us

You've heard a lot of untruthful things said about The  
Winnipeg Grain Exchange and its Members and operations.  
But we should like you to come in and see us personally  
and discover how our Members operate for your benefit.  
Ask questions of the President or the Secretary, or any  
other Member. You will get straight answers. The more  
you know about The Exchange, the less likely you are to  
be influenced by Pool propaganda against The Exchange;  
and the quicker you will want to get top world prices for  
your wheat, instead of a controlled price far below the  
open market price.

"Let there be light" between you and us. We are  
your agents. You cannot travel from China to Peru to  
sell grain. Our Members do that for you, in more than  
sixty countries of the world.

And remember, we have no more to do with "fixing"  
prices for wheat, oats or barley than you have. World  
supply and demand governs prices. You, as a well-  
informed man, know this.

You and our Members are in the grain business  
together. You produce it—we find markets for it. Without  
you, we could not exist (neither could the Pools). Without  
us, how could you find markets?

We favour a floor price for wheat administered by the  
Canadian Wheat Board—but we think you should have  
the opportunity to get top world prices, through the open  
market, NOW to offset possible lower prices a few years  
from now, when world supply overtakes demand; and also  
to offset the losses you took in the depressed thirties.  
Meantime mail the coupon below for a booklet explaining  
the Canadian Wheat Board Act and how you are regulated  
and controlled by it.

To The Winnipeg Grain Exchange,  
Winnipeg, Manitoba.

Please mail booklet to which you refer above.

## COWLEY HAPPENINGS

Mr. and Mrs. Harry Gunn and their grandson Brian have returned from a two week trip to Vancouver, B.C. to visit their daughter, Mrs. Mollie Milvain. Mrs. Ed. Hewitt of North Fork left Friday to spend the week end with her sister, Mrs. Crossfield, in Fernie, B.C. Frank Plazola and John Percevaux have returned from an aeroplane trip of two weeks to visit near relatives in Victoria and other B.C. points.

Mrs. Fred Burwell, of the Cowley airport, returned home Sunday from Pincher Creek where she was a patient for nine days in St. Vincent's hospital.

Messrs. William Cochrane, Neil Nicholson, M. A. Murphy and Harry Gunn attended the funeral of the late Mr. J. S. Lambert which was held in Macleod on Sunday afternoon, Jan. 11.

Mr. and Mrs. F. A. Testian sr., have returned home since spending ten days visiting their son Bradford and family at Manyberries and their daughter, Mrs. D. M. McIsaac, and family in Calgary.

Mr. and Mrs. Leslie Day and family of Claresholm when en-route to pay a visit to Mr. and Mrs. J. R. Wood at Cranbrook, B.C., made a stop-over here of a few days' visit with Mr. and Mrs. Arthur Tustian and family.

On the afternoon of January 7, Papp's hall was packed to standing when a motion picture show sponsored by the John Deer Plow Company, under the management of Wally Strome, John Deer blockman of Lethbridge, and Ted Jones was staged here. Following the demonstrative lecture on the latest and most advanced methods of farming including conservation of moisture, crop rotation, prevention of soil erosion and weed control, the picture "Doctor Jim" came on the screen as special entertainment. Door prizes were won by Mrs. Mike Shkoroatoff, Mrs. John Maloff and Mike Verigin.

Mr. and Mrs. Wilfred Fortier of Calgary were week end visitors here.

Since spending the Yuletide holidays at the parental home of Mr. and Mrs. T. E. Murphy here, Leo Murphy returned to Spokane this week to resume his studies in high school. Following his graduation this year, he intends to enter the University of Washington

this fall where he will pursue a course in chemical engineering.

Mr. Evariste Blais, 72, departed this life in St. Vincent's hospital, Pincher Creek, Wednesday, January 7. He has been in impaired health for a few years, and on taking a sudden turn was taken to hospital where he died a few hours later. Mr. Blais was born at St. Barnabé Nord, Quebec. Coming west, he settled on land in this district in 1912.

Funeral services were held in St. Joseph's church here Friday morning, January 9, to the Cowley cemetery where interment was made. Rev. Father, Violini performed the last rites. Pallbearers were: Messrs. John Lemire, Remi Lemire, Edmond Labrie, Joe Diamond, Wilfred Welsh and Joe Jordan. He is survived by his wife; three sisters, Mrs. Lalemont Gaerte, Quebec, Mrs. Fred Bastian, Shawinigan Falls, Quebec, Mrs. Telemere Lapointe, Cowley, and two brothers, Mr. Atleard Blais, St. Paulin, Quebec, and Mr. Arthur Blais, Cowley.

## APPLICATION FOR LEASE OF ROAD ALLOWANCE OR SURVEYED HIGHWAY

Notice is hereby given that I, Alexander Wakaluk, of Burnis, Alberta, has made application to the Minister of Public Works, Edmonton for a lease of the following road allowances or surveyed highway, viz., 1/4 mile Sec. 25 E, 1/2 mile Sec. 36 SE qtr., 1/2 mile Sec. 25 W, 1/2 mile Sec. 23 North Side all in T. 6, R. 3, W. 80 Met.

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

Dated at Burnis, Alberta

## Three Men Testify

All "Co-op" Officials  
All favour keeping Grain Exchanges open  
All want "Futures" markets continued

Read what two of them said before United States Congressional Committee on December 4th and what Mr. Davis said in St. Louis recently.

## Testimony of Mr. Herman Skyberg

Mr. Herman Skyberg, President of the Farmers' Co-operative Marketing Association of East Grand Forks, Minnesota, said:

"With the present marketing system (i.e. Grain Exchange and 'futures' markets) we have protection and do not have to carry the risk. As our manager buys grain from farmer members he sells 'futures' in the Minneapolis Grain Exchange. This gives us security and insurance." He said co-operative favored continuance of open markets and "futures" trading. "Therefore his directors had unanimously approved of his attendance at the Congressional hearing to express their wish that this satisfactory outlet for their grain be continued in operation."

Remember—his co-operative members received double the price co-operative members got in Canada, where the wheat price is controlled by Government.

## Testimony of Mr. Roy Crawford

Mr. Roy Crawford, General Manager of a large Kansas Co-operative with 250 locals said:

"The 'futures' market of the Grain Exchanges (in our case principally Kansas City and to some extent Chicago) are vital cogs in the marketing machinery of the present distributive system which we use in disposing of the farmers' grain."

Mr. Crawford said his members did not favour closing what is sometimes called "The Speculative Market" because, he added:

"The speculator gives to their markets, breadth and liquidity and that the grain 'futures' market provides buying power by concentrating in one general market place, demand from all sources, including the Millers, the Processors, domestic dealers, exporters—and the individual risk dealers or speculators."

## Statement of Mr. John H. Davis

Speaking in St. Louis recently, John H. Davis, Executive Vice-President of National Council of Co-operatives, said:

"The principle role of government in a long-range agricultural policy should be to assist in research, education and adjustment. We should depend on free enterprise to provide the markets. We can't call it a free market when the government maintains production restrictions and price controls on agricultural products. The government's function of adjustment is maintaining the mechanism of controls and subsidies for us in an emergency such as occurred in 1933. However, we hope to stay as far away as possible from restriction of production and subsidizing of prices."

Space does not permit printing the full testimony. If you wish to have it, mail Coupon below

Despite these testimonies the Canadian "Pools" want to close the Winnipeg Grain Exchange, although between them, they own ten memberships in it. And their members are actively trading in the "futures" market for coarse grains every day. Does this make sense to you, Mr. Farmer? The simple fact is that the Leaders of the Pools want to close the Exchange to get a vice-like monopoly control.

Farmers are cordially invited to visit the Exchange during trading hours, 9:30 to 1:15 p.m. Ask to see the President or Secretary, or any other member. Ask questions. Straight answers will be given.

All our members favour a "floor" price for wheat administered by the Canadian Wheat Board. But they also believe that farmers should have the opportunity to get top world prices NOW, through open markets, while prices are high.

The more farmers know about the Exchange, the better it will be for all concerned. Meantime mail the coupon below for booklet explaining the Canadian Wheat Board Act and how you are regulated and controlled by it, in its present form.

## MR. FARMER—

Mail this coupon NOW to learn how you and your grain are regulated and controlled.

To: The Winnipeg Grain Exchange, Winnipeg, Manitoba.	X
Please mail booklet to which you refer above.

LEAGUE presents TOPICS OF VITAL INTEREST

## VACCINATION WITH BCG MAY CUT TB INCIDENCE

(From the Toronto Globe and Mail)  
Success of the age-long fight against tuberculosis is in sight, the magazine Health suggested editorially in its current issue. It was commenting on the work of a clinic in Montreal where vaccination with BCG vaccine of 900 children against tuberculosis has been successful in every case.

"In spite of the fact that about 50 per cent. of our vaccinated children live in direct contact with tuberculous parents, none of the 900 children vaccinated with BCG in the isolated quarters of the BCG clinic has died or is actually suffering from any tuberculous infection," Dr. A. Guilbeault reported to Health, the semi-monthly publication of the Health League of Canada.

Dr. Guilbeault said that the success of the Montreal clinic, which was opened in 1935 by the provincial health department, demonstrates its value to every provincial health department in Canada. The budget of the Montreal clinic for 1945 was \$90,000.

The medical world has awaited a vaccine against tuberculosis since Koch, in 1882, discovered the causative agent of the disease. In 1908 two French scientists, Calmette and Guérin, made a chance discovery which led to the development of the Bacillus of Calmette-Guérin, now internationally known as BCG. The vaccine was extensively used in cattle and in 1921 was first used on a human. The patient was a new-born infant living in contact with his tuberculous grandmother. Success was demonstrated so quickly that within three years 300 such infant children in France had been vaccinated and none has died of tuberculosis.

In 1935, Ben. Athanasie David, Quebec Health Minister, visited France, where success with BCG was demonstrated to him. He arranged for the establishment of a clinic in Montreal to vaccinate new-born children in tuberculous surroundings. "Since that date everything has worked out as foreseen," Dr. Guilbeault reported.

One fixed rule regarding BCG vaccination is that the vaccine must not be given until it is demonstrated that the patient is absolutely free of the disease. Skin tests and x-rays may establish whether the patient is tuberculin negative or positive.

A year hence all the patients who have been vaccinated at the Montreal clinic and all their records will be intensively studied by a medical research team of the National Research Council. Some observers are confident that its report will speed the establishment of comparable BCG clinics in other provinces.

## MONEY GIFT FOR BRIDE WAS NEVER COLLECTED

POWELL, Vt.—The first wedding in Powell Center Union church 100-year history will take place—36 years too late for payment of a \$10 gift once offered to the first bride to march down the aisle. Daniel Dean of Powell center, who furnished some of the lumber for the church, posted a \$10 gift for its first bride—but the offer expired when he died in 1911.

A century ago, Daniel Dean of Powell center, who furnished some of the lumber for the church, posted a \$10 gift for its first bride—but the offer expired when he died in 1911.

Ju-jitsu in Japanese means "gentle art" or sometimes "to conquer by yielding."

"Heavens! My husband would never forgive me!"

TYPICAL WINTER SCENE—Record snowfalls have been reported across Canada, causing tie ups in travel and service, and costs of clearing highways and streets have run into thousands of dollars. The above is a street scene in Halifax, N.S.

## Pre-Planned —

# Nameless Town in Manitoba Is Rapidly Becoming a Model

THE first pre-planned industrial town inaugurated within the province of Manitoba is rapidly becoming a model town, although it is situated far north, some 86 miles north of The Pas, and has not yet been given a name. This was announced in a progress report issued by Hon. J. S. McDiarmid, minister of mines and natural resources. The nameless town, known officially as simply "Township 88", but referred to generally as Snow Lake townsite, expects to have a population of 1,500 families.

It is the first mining town to be developed under the new section of the Local Government Districts act, passed by the legislature in 1945 to provide for the orderly development of mining areas to eliminate the old-fashioned "tin towns".

Under the act, the town possesses an administrator, R. L. Cochrane, appointed last July by the province. He has all the powers of a municipal council during the opening years of the town's development. All land in the area, originally Crown property, is sold through him.

The basis of the township's progress was an agreement reached between the province, the administrator and the Howe Sound Exploration company, which is running the newly opened mine there.

Company To Spend \$325,000 Under this agreement, the company has committed itself to spend \$325,000 in the development of the townsite. Of this amount, \$175,000 will go to town improvements, such as the survey, clearing and grubbing streets, improvement, lanes and sidewalks, installation of water main and a sewage system, and construction of electric power lines.

The remainder of the money will go to provide for buildings, among them a four-room school costing \$35,000, a \$40,000 seven bed hospital and a \$75,000 community centre. Additional funds from the sale of lots will go towards further improvement.

The Howe Sound Exploration company is showing a keen interest in the new community, the report continues, and has agreed to maintain

streets, lanes, drains, sidewalks, street lighting, sewer and water systems, garbage collections, and to maintain reservoirs for water supply as well as distributing water services to houses not connected to the mains.

Besides all this the company has agreed to contribute \$6,000 a year to the local government district, as well as maintaining fire-fighting equipment and operating the electric distribution system.

Local Tax Concessions In return for this, the report says, the company receives some local tax concessions for a number of years.

The agreement stipulates that all these company services must be run to the complete satisfaction of the government-appointed administrator and none can be terminated without one year's notice. The agreement runs until 1951, and thereafter will be subject to annual renewal, with provision made for division of costs if new mining properties should open up in the area and new companies enter the townsite.

The construction of town facilities is well under way. Mr. Diarmid states, with the actual construction following strictly the paper-mapped plan. In this plan, the town takes full advantage of all conditions on the ground.

Employees Get First Chance The site, mainly chosen for the mine workers and their families, has been subdivided by the province and lots sold at base land values to the administrator. First chance of lots goes to the employees and to firms and persons who will provide services needed by the community, the minister said.

At present, the company has completed 41 houses, which will be ready for occupation this winter, as well as being well under way in the construction of the new hospital and school. A staff house has been erect-

## Saskatchewan Malt Barley King

REGINA. — Saskatchewan's 1946 champion grower of malting barley, Jack Wylie, Norquay, repeats his win in 1947 when judges of the \$25,000 National Barley contest at Winnipeg ranked his caribou entry as the best produced in his province last year.

The contest, second of the series initiated in 1946, by the brewing and malting industry, had nearly 400 entries from the western region which included the prairie provinces and the Peace River district of British Columbia.

ed and a curling rink will be put in this winter. The mine cook-house operates a snack bar and commissary, while the Hudson's Bay company opened the first store in the community. Soon to go in are a branch of the Royal Bank of Canada and a motion picture theatre.

Well Planned Roads The town has a well-planned road and avenue system, with picturesque names reminiscent of the wooded Northland, such as Lakeshore Drive, Poplar, Birch, Balsam and Spruce avenues. The business district is removed from the home site, but is still handy for future shoppers. It has lots marked out on a 90 foot wide road.

The town itself is connected by road to the Hudson Bay railway at Mile 82, Weyburn. The road, a difficult piece of construction, was started in 1946. The grade was completed this year, and travelling operations were in operation at the season's end. In order to assist in the early start of this road, the Howe Sound company ran a preliminary survey to the mine at a cost of \$6,000. This survey was followed by a location survey by the government in the early fall of 1945.

The cost of the road will be borne by the company, the province and the dominion. Under the agreement the company's share will be \$150,000 with the province and the dominion each contributing a somewhat larger share.

The mine itself has set an objective to sink its shaft to 940 feet by mid-December, and by Nov. 15, the shaft had reached the 844 mark. The shaft is five-compartment size, comprising an 11 foot 6 inch by 6 foot 3 inch cage compartment and man-way for ventilation, water, air and electrical services.—Winnipeg Free Press.

13 cups sifted cake flour  
1 1/2 teaspoons baking powder  
1/2 teaspoon salt  
1/2 cup butter or other shortening  
1 cup sugar  
1 egg, well beaten  
2 squares unsweetened chocolate, melted  
3/4 cup milk  
1 teaspoon vanilla  
Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter, add sugar gradually, and cream together until light and fluffy. Add egg and beat well; then add chocolate and blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in greased pan, 8x8x2 inches, in slow oven (325 deg. F.) 1 hour, or until done. Spread melon chocolate frosting on top and 1/2 inch of cake; or serve in squares with apricot cream topping as a dessert cake.

Both the halibut's eyes are on its right side.

## Answering Your Questions ABOUT IMPORT CONTROL

MOST of the countries which are Canada's regular customers have not recovered sufficiently from the war to pay, in the normal way, for all the goods they need, despite extensive help from this and other countries. Nor are they able to send us enough of their goods to balance accounts—or to pay us in the kind of money which we, in Canada, can use to buy goods in other countries.

At the same time, Canada has been buying more goods than ever before from the United States and other countries demanding U.S. dollars. This is because these goods were not obtainable elsewhere and because of demand pent-up during the war.

Buying from the United States or U.S. dollar areas must, therefore, be temporarily reduced until our trading again becomes normal.

To meet this emergency, purchase of goods and services or expenditures for travel, which must be paid for with U.S. dollars, are now subject to control.

IF YOU ARE AN IMPORTER OF CONSUMER GOODS and wish to find out what goods are (1) prohibited, (2) subject to quota, or (3) unaffected by controls, see or write your nearest Collector of Customs and Excise.

IF YOU WISH TO IMPORT GOODS SUBJECT TO QUOTA and wish to establish your quota authorization to import, or need special information, consult your nearest Collector of Customs and Excise. Quota application forms (E.C. 1) and instructions for completing them, are available at all Customs Offices. These applications must be filed with the Collector of Customs and Excise.

IF YOU WISH INFORMATION ON THE AMOUNT OF YOUR QUOTA. After your application has been filed with your Collector of Customs and Excise, all correspondence about the establishment of quotas or cases of exceptional hardship through import prohibitions should be directed to Emergency Import Control Division, Department of Finance, 490 Sussex Street, Ottawa. Quotas are issued on a quarterly basis and any unused portion may be carried over into the following quarter.

IF YOU ARE AN IMPORTER OF PRODUCTION PARTS, STRUCTURAL STEEL, stone, machinery or other capital goods or automobiles, and wish to know the import restrictions in these classifications, write or see Emergency Import Control Division (Capital Goods), Department of Reconstruction and Supply, 385 Wellington Street, Ottawa.

IF YOU INTEND TO TRAVEL OUTSIDE CANADA and wish to know about foreign exchange available for this purpose, consult any bank or the Foreign Exchange Control Board at Ottawa, Montreal, Toronto, Windsor, Vancouver. If you wish information about personal purchases of goods made during travel outside Canada, consult the nearest Collector of Customs and Excise before departure.

IF YOU ARE A MANUFACTURER, WHOLESALE OR RETAILER and wish information about excise taxes, or about the list of goods to which they apply, consult the nearest Collector of Customs and Excise.

IF YOU NEED OTHER SOURCES OF IMPORTS consult the Foreign Trade Service, Department of Trade and Commerce (Import Division), Ottawa, regarding your supply problems arising from import quota restrictions. Through the Trade Commissioner Service, the Import Division is endeavoring to arrange increased supplies from the United Kingdom and other "non-scheduled" countries.

IF YOU ARE A HOUSEWIFE and wish information on available alternate foods which have comparable nutritional values to those now prohibited or subject to quota, informational material which has been prepared by the Nutrition Division of the Department of National Health and Welfare may be secured from your Provincial Health Department or local health unit.

The administration of these emergency import controls is the responsibility of various departments of the Government. The above information is given to aid Canadian citizens in complying with the new import control regulations with a minimum of inconvenience in their business and personal affairs.

Douglas A. Coor  
Minister of Finance.
